

## Stackhouse/Kryszak College Project

### **Essential Questions-**

What career path do you want to have when you are older?

What type of education (college/university/trade school) do you need to get there?

What do you need to do in your K-12 education to get there?

### **Part 1-**

Explore- What career path do you want to have when you are older. When you have an answer, design your crystal ball to show you in your career path. After, research your career path to see what kind of education to pursue.

### **Part 2-**

Research- Decide what school you will need to attend. Collect research on why you want to attend this school as well as the following:

- Location of the school
  - Weather experienced there
- Population of the school
  - Total
  - Men
  - Women
- Tuition (per semester)
  - Are scholarships available?
- School colors
- School mascot
- School logo or symbol
- School song or chant
- Sports
  - intramurals
- Brief history
- Places of interest in the city to visit
  - Restaurants
  - Destinations
- Cost to live in a dorm
  - Room
  - Board
  - Extras
- Clubs, Organizations, and Greek Life

**Part 3-**

Organize- Organize your research into a digital brochure or website. Make sure to make it easy to read and unique.

**Part 4-**

Finance and Budget - Paying for Your Education - Determine how you will pay for your education and your expected monthly expenses.

**Part 5-**

Defend- Write an essay (5 paragraph minimum) to defend your choice of school. Does it give you the education you need? What drew you to pick that school? Why?

**Part 6-**

Expand your vocabulary by keeping a list of words that are specific to this project. Make sure to keep your definitions also.

**Part 6- (optional/at home)**

Create- Create a pennant for your school. You may re-create one that the school has or create one of your own based upon your research. Do not purchase one already made.
